

COMPLETE AN EDPUZZLE!

First you want to go to the website: <https://edpuzzle.com/home>

Then you will sign in with your Google Account

To complete an Edpuzzle is very easy!

1. Watch the video and pay close attention
2. Answer the questions
3. Make sure that your answer makes sense.

Some questions (short answers) have to be graded, so you will not see your final score yet, but if the Edpuzzle was all multiple choice, then you will see your score at the end.

I do not reset Edpuzzles! So pay attention and make sure your answers are correct.

Please go back to Google Classroom and mark the edpuzzle as DONE! This will help a lot when it comes to grading late assignments.
