

# Raise my Grade

First off you want to check and make sure that you are checking weekly to see if you are missing assignments. Remember, you only have ten days from the due date to turn it in late.

It helps especially to attend tutoring/office hours. If you show me that you are trying, then you will be compensated for your time and effort.

Honestly, it is really hard to fail this class if you complete and turn in all of your work on time. Students with D's and F's almost always have missing/late assignments!

Do NOT get yourself stuck in a hole that you cannot climb out of. Get help sooner and always monitor your grades weekly (Monday is a great day to check your grades!)
